FB/FBD T3 Series Motor Gear Units

Available in AC and DC versions

Output Torque: Up to 130Nm AC or 33Nm DC, depending on speed and motor size

Speed Range: 1 - 50rpm

The heavyweight of our range, the FBT3 is a low speed, high torque unit designed with pellet burners and fresh brew vending systems in mind, although it is equally suited for many other applications. High quality engineering ensures quiet running and a long life.
